

Hybrid Broadcast and Event Control Truck

Introductory Guide

Welcome to 4K one

by Innovative Production Services

We are proud to present 4K ONE, our new hybrid broadcast and event control truck.

4K ONE is an innovative solution for a new world of hybrid and live events with increasingly complex video and broadcast requirements.

Being equally competent in both the broadcast world and the live event world, 4K ONE features the best technology from both, combining them in an innovative form factor.
